1. A widely used aroma
2. Makes meals different
3. A relaxing effect
4. Holiday scents
5. Creating memories
6. Smelling emotions

A. Nothing brings back memories like a particular smell. Whether it's of Christmas pine, your grandma's fresh-baked gingerbread, or cookies, the scents of Christmas are truly special. In the days leading up to this day, the house fills with the wonderful rich, spicy smells of vanilla, cinnamon and ginger coming from the kitchen, promising delights to come.

B. Some of the most pleasant scents after a hard day are vanilla, lavender, and scents with cinnamon or ginger. Each combination of aromas can influence you positively. For example, vanilla's sweet scent can help you if you feel sad, lonely, or depressed. It is a naturally warming aroma. Cinnamon is good in case you feel tired; it also has a wonderful effect on your nerves, calming you down.

C. The ability to smell is linked to our ability to remember things. When you first smell a new thing, you connect it to an event, a person, or even a moment. As a result, later the smell of cookies might remind you of spending time at your grandmother's house when you were a small child. When you come across the smell a second or third time, the link is already there, ready to bring out a certain mood.

D. There are certain smells we can identify from a mile away – almost as if they're preprogrammed into our minds. One of them is vanilla. Today, vanilla is in our coffee, perfumes, tea, home products, body lotion, and everywhere! Both the scent and taste of vanilla are very strong and long-lasting. It is considered one of the most popular scents and flavours in the world.

E. A new study suggests that we can smell not only aromas but feelings as well – fear, happiness, disgust and joy. The experiments proved that we can find out how a person feels even if we neither see nor hear him. Nerves inside our nose take informative messages about the person and his emotional state to the brain. However, the mechanism of how this happens is not yet clear.

F. Our sense of smell does 80% of the job when we taste various foods. Without a sense of smell you can't taste the difference between an apple and a potato or a glass of juice and a cup of cold coffee. This is why, when our nose is blocked by a cold, most foods seem tasteless. Our sense of smell becomes stronger when we are hungry.

The koala is a small bear-like animal that looks like a soft toy. The animal is cute and non-aggressive, but it's difficult to see a koala in the Zoo and no one ever keeps them as pets. Why is it so?

The main reason why people shouldn't try to take koalas out from their natural home is their diet. It's a strict diet of eucalyptus leaves as koalas practically never eat anything else. So, to keep a koala happy and healthy, you would have to plant about 100 eucalyptus trees!

It's difficult to explain why koalas love eucalyptus leaves so much. The leaves are tough and feel like rubber. They have very few calories and they are poisonous to most animals. Koalas, however, cope with such a diet easily. Nature has equipped them with specialised adaptations. Each koala eats approximately 200 to 500 grams of leaves per day. They are very slow eaters and they manage to get the maximum amount of energy from such a small amount of food.

Koalas spend all their lives on eucalyptus trees and they don't have any need to leave them. Normally the animals don't drink water as they receive it from the leaves. For this reason the koala got its name from an ancient Aboriginal word meaning "no drink".

Koalas are slow-breeding animals and their population can't grow fast. The animals were in danger of extinction at the beginning of the 20th century when the koala was hunted for its fur. Fortunately, the population has been restored and today the Australian government doesn't consider the koala as endangered.

Without the energy from the Sun, the Earth would have no life at all. Nowadays everyone knows that the Sun is a star. Like all stars, the Sun is a great burning ball of gases. To us, it seems large and red. The other stars look white or light blue because they are much farther from us than the Sun. In the past, many people believed that the Earth was the centre of the universe. They thought that the Sun and the stars went round it. Only in 1543, a great Polish scientist published a book in which he tried to prove a different point of view. According to him, the Earth and the other planets moved round the Sun. Those people who supported the scientist were often imprisoned and even killed.

Kevin: Hi! I'm Kevin. Can I sit here?

Kate: Yes, sure.

Kevin: And what's your name?

Kate: Kate.

Kevin: Is this your first visit to Paris?

Kate: Yes, I'm from Canada and this is my first visit to Europe or anywhere else. I've never been abroad before and everything seems very exciting. And where are you from?

Kevin: From Liverpool. My family's lived in that part of England for ages and we seldom travel anywhere either.

Kate: My parents are completely different; they travel a lot because of their job, but they've never taken me with them.

Kevin: I see.

Kate: But this time we are travelling all together as a family. Today we are going to have a guided excursion of the historical part of Paris. Are you here on your own?

Kevin: No. It's a school trip. The whole class are here and two teachers to supervise us.

Kate: Oh, it must be interesting travelling in a large group.

Kevin: Yeah. We were awarded this trip when we won the city competition.

Kate: Was it a sports competition?

Kevin: No, it was a competition for school rock bands.

Kate: You're a musician?

Kevin: Sort of. In our band I play the drums.

Kate: Do you see music as your career? Everyone nowadays wants to be either a celebrity or a computer genius.

Kevin: Not in my case. Music is just for fun. I'm deeply interested in physics and biology. I think that absolutely fantastic discoveries are awaiting us in these fields. They could completely change our idea of the universe and of ourselves.

Kate: So, you want to do scientific research?

Kevin: Exactly.

Kate: But that means getting a very good education...

Kevin: Yes. This is my last year at school and I hope to start my university course this summer. I've got good grades and it makes my plan sound quite realistic.

Kate: Yes, it looks like a good one. You seem to have planned your life very well. I can't even make up my mind on what souvenirs to buy for my friends back home...

Kevin: I've found a shop with some old photos of the city. I bought several pictures there as gifts for my friends. They're not expensive and the images are lovely.

Kate: Yeah, I think that would be better than heavy souvenir mugs or T-shirts with prints. Could you tell me where the shop is?

No, it's a school trip...

Dear Andrew,

Thank you for your letter. I'm glad to hear from you again. I'm glad that your opinion about museums has changed.

I don't think that visiting museums and exhibitions is boring, but you need to choose something you are interested in. For example, a retro-car museum would never be boring for a person who's interested in cars. However, if you are indifferent to cars but love flowers, it would be better to go to a flower exhibition. The last museum I visited was a historical museum. Our teacher took us there last Wednesday. It was interesting, but the museum was very small. I would really like to visit the State Historical Museum in Moscow — it has a very rich collection of artefacts. I hope I'll see it one day.

Write soon.

Best wishes,

Kira
